### Emissions reduction targets

The organisation is committed to achieving Net Zero emissions by 2050 at the latest. We will keep this date under review, bringing it forward if possible as our carbon reduction plans develop.

### Carbon Reduction Projects

#### Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed:

- The organisation achieved Green Small Business Certification in March 2024, having developed an environmental policy and comprehensive action plan addressing all of the significant environmental impacts of the business.
- Separate waste and recycling streams for plastic, cardboard, glass, and general waste.
- Recycling of printer consumables.

<sup>3</sup> This includes emissions from Employee Telecommuting, a sub-category of Category 7.

<sup>4</sup> This category includes emissions from transportation of products between Gedeon Richter Group's Hungary manufacturing operations and Gedeon Richter (UK)'s third party transportation services in the UK. Although Gedeon Richter (UK) does not pay for or organise this element of shipping, it is deemed to be relevant to the provision of goods to Gedeon Richter (UK) customers.

- Implemented a 'use of transport' policy to ensure that emissions from business travel are consistently low.
- Ensuring environmentally responsible purchasing for all goods and services.

## Planned Carbon Reduction Initiatives

Our environmental action plan commits us to the implementation of further measures which we anticipate will reduce the carbon intensity of the business, such as:

- Conduct an energy audit to examine whether emissions reductions are feasible by exploring:
  - Procurement of 'deep green' renewable electricity
  - Installation of on-site solar PV
- Transitioning to electric company vehicles when feasible.
- Conducting an environmental audit of our transportation/logistics suppliers.
- Providing our staff with information on environmentally responsible behaviour whilst working remotely and facilitating good practice.

## Declaration and Sign Off

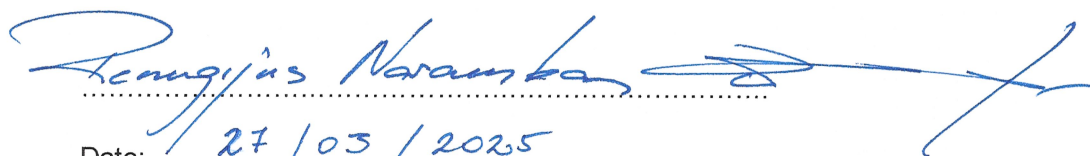

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>5</sup> and uses the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>6</sup>.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>7</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
